

SIEMENS

Ingenuity for life

SITRAIN access Welcome to learning in the digital age

SITRAIN access is the digital learning platform for industry. It facilitates digital, innovative learning and professional education in all sectors. It's online, flexible, continuous, and personalized. Our knowledge offerings are curated by our experts, arranged in modular form, and can be accessed to suit your own requirements. SITRAIN access is more than just a video platform: Constant additions to its content, together with the ability to monitor your progress and complete practical exercises, fulfill all the requirements for sustainable learning.

SITRAIN access at a glance

The digital learning services provided by SITRAIN access cover a range of topics relating to the Siemens product portfolio and help ensure greater transparency: Learners know how far they have progressed, what knowledge they still need, and the best way to obtain it. Companies get an overview of the level of knowledge their employees have reached, and can propose or assign further suitable courses. All learning content is structured on a modular basis and can be utilized as you see fit after you subscribe: Several hours at a time, or just a few minutes on the way to work – the choice is yours.

Learning in the digital age

SITRAIN access in detail

SITRAIN access offers many benefits for both companies and their employees. Our training course experts have developed extensive, verified content to ensure you get the best possible learning services. The modular structure of the services, which you can access at any time, facilitates effective learning and ensures a transparent learning progress, and there's also a vibrant community to provide maximum motivation.

Ideal knowledge services

Effective learning

Maximum motivation

For companies

SITRAIN access offers companies an extensive and constantly growing range of content for all sectors and applications, whether they're a beginner or an advanced student. Our training experts ensure you always get up-to-date trustworthy knowledge, directly from the manufacturer.

Scalable offers for companies of all sizes are ideal for continuously building up and expanding knowledge in your company. Special functions provide transparency and influence on your employees' learning progress.

SITRAIN access offers an innovative learning portfolio to assist your employees. With SITRAIN access, you can objectively measure learning progress and enjoy a wide selection of learning services for all your employees. The manager function enables you build up and expand your employees' expertise. Gamification elements improve employee motivation and help achieve sustainable learning effects.

For learners

The carefully curated content, clearly structured by our training experts, together with a wide range of content for all areas of industry, provides knowledge to meet every need. Different stages of knowledge, from beginner to expert, and multimedia content for all types of learners ensure you always find what's right for you.

SITRAIN access is available anytime, anywhere, and can be used on any device, such as via a mobile app. Its modular structure divides the content into easy-to-follow "learning nuggets" and includes checkpoints to monitor your achievements. Constant additions to the content of SITRAIN access, together with the ability to complete practical exercises and monitor your progress, enable sustainable learning whenever and wherever you want it.

Learning made fun: SITRAIN access leverages motivation through vibrant interaction with training experts and the community and practical exercises to apply what you have learned. You also gain new opportunities to look beyond the horizon and explore new avenues.
