

SIMATIC WinCC Unified 1

General Information

Course Code SCT-TIA-UWCC1
Global Code TIA-UWCC1
Length 3 Days
CEUs 2.0

Audience

This course is relevant for personnel who are tasked with creating and/or editing HMI projects. This includes Programmers, Operators, Commissioning Engineers, Configuration Engineers, Maintenance Personnel, Repair Personnel, and Service Personnel.

Prerequisites

- None

Profile

SIMATIC WinCC Unified is the new visualization system in the TIA Portal. The system is convincing due to the use of native web technologies, which are introduced to you in this course. You will also learn the high degree of openness through high-performance interfaces. Learn how to use WinCC Unified and the new Unified Comfort Panels and get a personal impression of the performance of new devices. The training is aimed at first-time users of WinCC Unified and Unified Comfort Panels. The elementary basics and configuration steps are taught.

Objectives

Upon completion of this course, the student shall be able to:

- Introduction to the installation.
- Design TIA Portal faceplates and create simple dynamizations.
- Efficient configuration through the use of faceplates.
- Create screen navigation (screen window technology).
- Configure alarms and messages.
- Access S7 controllers.
- Awareness of security aspects.

Topics

1. System overview
2. Installation
3. Getting to know the configuration user interface of the engineering system
4. Creating and using projects
5. Downloading a project to the HMI device
6. Creating screens and screen navigation
7. Standardization and getting to know and creating faceplates
8. Using system functions and scheduled tasks
9. Creating the user management
10. Configuring data logging and alarm logging
11. Security aspects
